

# LAX Fly Quieter Program Update

Presentation to LAX/Community Noise Roundtable  
July 19, 2023

---

# LAX Fly Quieter Program Overview

A public education and recognition program designed to:

- Increase airline/pilot awareness of community noise concerns and adherence with noise abatement procedures and restrictions at LAX
- Encourage and acknowledge airlines for flying as quietly as possible
- Evaluate airlines on their performance and publicly acknowledge those that perform the best

# Fly Quieter Program Scoring Elements

## 5 Primary Elements

1. **Quietest Arrivals:** based on measured noise levels from 2 monitors in residential communities
2. **Quietest Fleet:** based on certificated noise levels of aircraft operating at LAX
3. **Pilot-Initiated Early Turns:** based on the number of pilot-initiated early turns flying over communities
4. **Nighttime Non-Conforming East Departures:** based on the number of non-conforming east departures during 12 AM and 6:30 AM
5. **Restricted Nighttime Engine Run-Ups:** based on compliance with the maintenance engine run-up restrictions between 11 pm and 6 am

## 2 Bonus Elements

1. **Noise Reduction Efforts:** implementing any equipment, technology, or procedural type effort to reduce aircraft noise
2. **Stakeholder Engagement Efforts:** implementing outreach and educational efforts with various stakeholders

**LOS ANGELES WORLD AIRPORTS RECOGNIZES AIRLINES AND OPERATORS FOR EFFORTS TO REDUCE AIRCRAFT NOISE**

Recipients of the LAX Fly Quieter Award and VNY Noise Airport Friendly Flyer Award were recognized at the Board of Airport Commissioners' regular meeting on Thursday, June 15, 2023. (Los Angeles, CA) Los Angeles World Airports (LAWA) recognized nine airlines as winners of the

# FQP Special Recognition

LAWA also recognizes air carriers that voluntarily make extra efforts to reduce aircraft noise and/or engage with the community by awarding them with bonus points as a way to improve their scores.

**Noise Reduction Efforts:** These air carriers retrofitted A320 with noise reducing technology (vortex generator) specific to that aircraft model:

Retrofit Completed in 2022: [American Airlines, Spirit Airlines, and JetBlue](#)

In progress: [United Airlines](#)

**Stakeholder Engagement Efforts:** These air carriers participated in LAX Roundtable meetings in 2022:

[Aerologic, Alaska Airlines, Spirit Airlines, and United Airlines](#)
