

Trash Compactors at TBIT

Effective November 16, 2016 trash compactors at three strategic locations at Tom Bradley International Terminal (TBIT) will be placed into service. These locations are:

- Overview of TBIT

- Next to the North Bus Gates

- Adjacent to the South Loading Dock

- Adjacent to the North Loading Dock

All concessions, service providers, and TBIT ramp operators will be required to use the trash compactors at the identified locations.

With the trash compactors being placed into service, LAWA Maintenance Services Division will be removing all trash/recycle bins from the ramp at TBIT gates. The removal of the trash bins from the ramp is also intended to help mitigate FOD and enhance the current Wildlife Hazard Mitigation Program.

For questions, please contact Christian Moreno at cmoreno@lawa.org, 424-646-6754.

Issue Date: November 8 , 2016

Subject: Trash Compactors at TBIT
