LOS ANGELES INTERNATIONAL AIRPORT (LAX)

AIRCRAFT NOISE COMMENT MONTHLY REPORT

April 2020
BACKGROUND

Los Angeles World Airports (LAWA) is the City of Los Angeles department that owns and operates Los Angeles International (LAX) and Van Nuys (VNY) airports. Since 1959, LAWA has implemented noise abatement programs and has been committed to minimizing noise impacts in neighboring communities from aircraft operations.

While all aircraft generate noise, technological advancements have produced quieter aircraft and airports have implemented programs and procedures to reduce the effects of aircraft noise on surrounding communities. LAWA has worked with the Federal Aviation Administration (FAA) and in partnership with adjacent cities to develop policies and programs that address this important issue. These policies and programs include implementing preferential runway use procedures, over ocean flight operation, maintenance and engine run-up restrictions, and residential sound insulation programs within communities neighboring LAX.

The purpose of this report is to provide information on noise comments received from individuals and communities.
INDIVIDUALS VS NOISE COMMENTS

**Individuals** are community members that have submitted at least one noise comment to LAWA. One individual may submit multiple noise comments.

**Noise comments** are submitted by individuals expressing their concerns or seeking information on noise related events associated with LAX aircraft operations.

NOISE COMMENT SUBMISSIONS

The graph above shows individuals and total comments submitted this month and over the previous 12 months.

Cities with One (1) Individual* 18

*Cities where only one (1) individual submitted a noise comment are combined in this grouping.
The map above shows the monthly individual locations. Some locations are outside of the map boundary.
WHAT WAS THE NOISE COMMENT CONCERN?

Individuals may select one (1) noise concern from a list of multiple aircraft noise concerns when submitting noise comments. Out of 140 individuals who submitted noise comments, 90 reported aircraft flying over home as the main concern.

Additional noise concerns were unusually loud aircraft (44); low flying aircraft (29); and late night or early morning (19).

COMMUNITY NOISE CONCERNS

- Flying Over Home: 90 individuals
- Unusually Loud: 44 individuals
- Low Flying: 29 individuals
- Late Night or Early Morning: 19 individuals
- Vibrations or Rumbling: 17 individuals
- Frequency of Flights: 15 individuals
- Sustained Noise (>5 minutes): 8 individuals
- Hovering: 4 individuals
- Circling: 3 individuals
- Other: 2 individuals
- Inquiries Only: 1 individual

Individuals who submit more than one (1) comment during the month may be counted in more than one category.
WHAT IS CAUSING THE CHANGE IN NOISE COMMENTS?

The number of individuals submitting noise comments at LAX was lower in April 2020 when compared to the previous month. This seems to be related to the significant decrease in operations at LAX due to COVID-19.

NOISE COMMENTS CAN BE SUBMITTED TO LAX NOISE MANAGEMENT PROGRAM OFFICE BY THE FOLLOWING:

**NOISE COMMENT FORM**
Filling out the LAX Noise Comment Form

http://viewpoint.emsbk.com/lax1

**WEBTRAK**
Accessing the LAX WebTrak, a live flight tracking website, that allows users to view and identify aircraft operations and perform self-investigation. The online comment form can be accessed by clicking on the “Comments” tab located on the top left hand corner, then the “Comment Form” button.
