

AOA Vehicle Service Road Foxtrot Closures – Pavement Rehabilitation Project

LAWA Maintenance will complete a Pavement Rehabilitation Project for Vehicle Service Road (VSR) Foxtrot, and small segments of VSR Alpha and VSR Charlie at the east end of the airfield. VSR Foxtrot will be repaved in several phases, requiring daily lane closures. VSR access will be maintained in both directions, but there will be short intermittent traffic holds by flaggers for opposite direction traffic using the open VSR lane. Ingress and egress to the Security Access Posts will not be impacted during these phases of the project. The work hours for the first phases of this project will be day time 0700 – 1600L. The following partial VSR lane closures can be expected:

- Phase 1: 8/27 – 8/30, VSR Alpha between Taxilane A1 and Post 4.
- Phase 3: 9/4 – 9/5 & 9/11 – 9/12, VSR Foxtrot north of Post 4 and south of Post 236B.

Thank you for your support.
