

9.11.2024

Security Credentials Section

DELETION OF TRAINING RECORDS

Pursuant to data migration to the **badging Credentialing System (CS)**, the **Security Badge Office** will be deleting all the training records/data hosted by the vendor **Safety and Security Instruction (SSI)**, using the LAWAtraining.org portal.

If you determine that you need your employee training records, dated prior to **7/12/2024**, you are encouraged to visit LAWAtraining.org to save/print those records, which will only be available **for a limited period of time**.

Effective **9/20/2024**, all **LAWA-generated IET training records** dated **7/15/2024**, and beyond, will be available on the **IET Training Assignments and Latest Results Report** in the Authorized Signer portal in the **OAS** module. All training records dated prior to **7/12/2024** will be deleted from this portal.
