

LAX New Badge Colors December 1, 2017

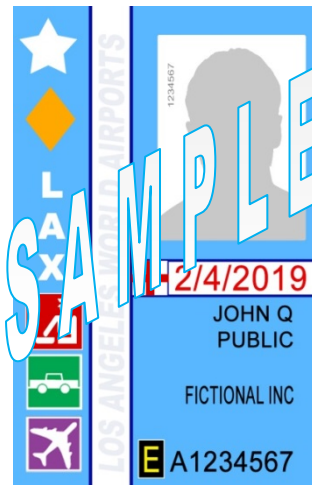

To ensure compliance with TSA badge accountability requirements, Los Angeles World Airports (LAWA) has developed a phased-out approach for replacement of current green and maroon Security Identification Display Area (SIDA) badges.

Effective **December 1, 2017**, and throughout the course of the next two years, when an applicant is requesting a new, renewing an active, or replacing a lost, stolen, or damaged LAX SIDA badge, the badges will be issued in the respective new color.

GREEN will transition to BLUE

Before 12/01/2017

After 12/01/2017

MAROON will transition to PURPLE

Before 12/01/2017

After 12/01/2017

Green and Blue colored badges will be used concurrently; as will Maroon and Purple colored badges, until the green and maroon badges are cycled out of the badge program. Thank you for your cooperation in this matter. Please contact the Security Credential Section (Badge Office) (424) 646 – 5500 with questions regarding this matter.
