| COMMENTS: |  |  |  |  |  |

Overall, Concession sales are up $6 \%(\$ 8.06 m)$. When looking at In-Terminal Concession sales (excluding Advertising and RAC), sales are up $17 \%$ ( $\$ 11.37 \mathrm{~m}$ ), which is more than the $8 \%$ passenger (pax) growth during the same period.
Duty Free sales are up 33\% (\$5.09m). In T2, the decline from Europeans, Latin Americans, and Canadians outweighs the increase from PRC pax, resulting in an overall decline. In T3, growth from PRC and Latin Americans as a result of airlines relocation resulted in an overall increase. Note that T3 will be closed for renovation soon. T4 continues to benefit from AA flights to Beijing with good level of spendings from PRC customers in all categories, particularly in Beauty and Food. T5 continues to suffer from loss of international flights but expect to be normalized by June. DFS is working on brand negotiation and assortment fine tuning. In T6, the new Canadian flight led to higher traffic and higher spendings. T7 continues to benefit from additional flights and experiences good growth from Spirits and Tobacco. Lastly, TBIT continues to benefit from growth in PAX leading to solid growth in transactions and sales.

F \& B sales at LAX are up 7\% (\$2.04m). Sales in TCM terminals (1, 2, 3, 6, TBIT) are up 14\% ( $\$ 2.18 \mathrm{~m}$ ), while TCM terminals enplanement are up $14 \%$. Note that T1 Food Court is still currently closed for remodeling. Sales in Non-TCM terminals (4, 5, 7, 8) are down 1\% ( $\$ 140 \mathrm{k}$ ), while enplanement in Non-TCM terminals are flat (0.6\%).

Retail sales at LAX are up $11 \%$ ( 1.78 m ). TCM terminals sales grew $15 \%$ ( $\$ 1.59 \mathrm{~m}$ ), while TCM terminals enplanement are up 14\%. Sales in Non-TCM terminals grew 4\% (\$192k), while enplanement in Non-TCM terminals are flat ( $0.6 \%$ ). Note that T5 sales is down only $7 \%$, when T 5 pax is down by $17 \%$. This is because the current per pax spending in T 5 is much higher than it has been in the past as a result of the airlines relocation.

Gross sales from Services at LAX are up 31\% (\$2.45m). This increase in sales are as a result of Lenlyn (currency exchange) and the introduction of Alclear.

Advertising sales are down $16 \%$ ( $\$ 532 \mathrm{k}$ ) mainly as a result of the reduction or expiration of the major clients. JCDecuax is working to replace these with new clients.

RAC sales are down by $4 \% ~(\$ 2.78 \mathrm{~m})$ YoY. The RAC sales per enplanment is down by $11 \%$. This is one of the biggest declines in sales/pax that we have seen since the tracking of this metric.

[^0]
[^0]:    * Duty Free Sales per Enplanement (SPE) is based on international enplanement, while all the others are based on all enplanement.
    ** One exception is the prior year's Duty-Free sales in T3 and current year's sales in T5, which made up of mostly domestic passengers pre and post airlines relocation, respectively. Sales in these terminals are made up of mostly Duty-Paid items and should be compared to all enplanement.
