

# Construction Hot Topics

Week of April 20, 2020

## 1. CTA Roadways: Departures Level Terminal 2 / 3:

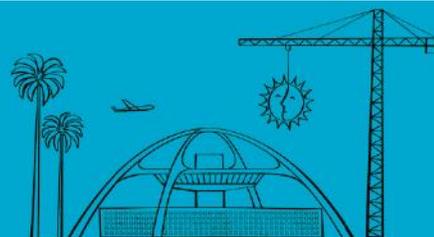

- The temporary sidewalk on the Departures Level between Terminals 2 and 3 (Delta Sky Way Program) is now in use by pedestrians 24/7
- Work to install lighting and other finishes will continue this week
- Signage is in place for pedestrian and vehicular detours

## 2. Terminal 4.5 Tower Crane

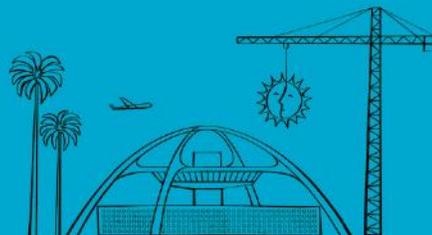

- A tower crane is being constructed on the airfield between Terminals 4 and 5 for the Terminal 4.5 APM Core project; the base of the crane is currently visible from parts of the Central Terminal Area
- The crane is scheduled to be fully built by the end of April 2020, and is scheduled to be in place through September 2021

## 3. Automated People Mover: East Station Formwork

- Progress continues on the Automated People Mover project with construction of the bent caps for the future East CTA Station (between Parking Structures 1 and 7); bent caps bridge the roadway and support the station
- Concrete will be poured into the wooden formwork pictured below to form the bent caps
