1. Hotel / Private Parking Stop Closed: Terminal 3
   - The Hotel / Private Parking Shuttle Stop on the Departures Level, Terminal 3 is closed until further notice
   - Signage is in place directing guests to the next available stop

*Terminal 3 Hotel / Private Parking Shuttle Stop Closed*
2. Barricade Construction: Terminal 4 / 5
   - To facilitate work for the Terminal 4.5 APM Core Project, work to expand current curbside barricades on the Arrivals Level between Terminals 4 and 5 is occurring nightly this week
   - Barricades are scheduled to be complete this week with finishes

*Barricade work continues at Terminal 4.5 (Arrivals Level, Curbside)*
3. Automated People Mover (APM) Construction Update

- The APM Project reached a milestone this week: Concrete was poured and forms were stripped, exposing the first bent cap that will support the East Station for the Automated People Mover.
- Pictured below is a photo from two weeks ago when formwork was started, and a photo from now showing the concrete.
4. Cranes in the Central Terminal Area

- The landscape of the Central Terminal Area is changing rapidly – as seen from the roof of Tom Bradley International Terminal (Terminal B – north end) there are numerous cranes performing work on multiple projects all at once
- Some cranes – such as the tower crane airside between Terminals 1 and 2 – is scheduled to come down later this month, while others – such as the tower crane airside between Terminals 4 and 5 – was completed just last week and is scheduled to be up through late next year
