

## MEMORANDUM

**DATE** March 30, 2022

**TO** All LAWA Employees

**FROM** Justin Erbacci, Chief Executive Officer 

**SUBJECT** **2022 AQMD Employee Commute Survey**

Air quality is an important environmental issue that has a great impact on our quality of life. Emissions from industry and passenger vehicles affect air quality by contributing to smog and airborne particulate matter that can negatively impact health. LAWA employees can help to reduce vehicle emissions by using alternative, sustainable commute modes to get to work.

LAWA is proud of our leadership in improving employees' quality of life and improving regional mobility, while excelling in local and national environmental programs. LAWA is a founding member of the Best Workplaces for Commuters Program, a national leader in the Association for Commuter Transportation, and has met or exceeded South Coast Air Quality Management District Rule 2202 requirements for more than 17 consecutive years. This year's AQMD Employee Commute Survey is another chance to show the significant contributions that LAWA is making toward reducing traffic congestion and air pollution in Southern California, in addition to complying with the law.

Rideshare must survey all LAWA employees who report to work at LAX, regardless of work location or shift. The personal information collected will be secure and confidential, and only aggregated summary information will be reported. No personal information will be shared outside of the LAWA Mobility, Strategy and Planning Group. All LAWA employees, except those who report to Van Nuys Airport or Downtown, are required to complete this survey.

The 2022 AQMD Employee Commute Survey can be accessed through the LAWA Employee Portal. All employees with a LAWA e-mail address will receive an e-mail message with a direct link to the survey and will be required to complete the survey by April 15, 2022. The online transportation survey is pre-populated with much of the employees' data and the travel portion should take no more than two minutes to complete. Employees without access to the employee portal can complete a PDF version of the survey, which they can sign and scan, or e-sign and send to [rideshareinfo@lawa.org](mailto:rideshareinfo@lawa.org).

This year, LAWA Rideshare will be collecting AQMD Employee Commute Survey data for the week of Sunday, March 20, 2022 through Saturday, March 26, 2022. The survey will open on March 29, 2022 and the last day to submit is April 15, 2022.

If you have questions regarding this memo, please contact your Division Survey Liaison or the LAWA Rideshare Office at (424) 646-POOL (7665).
