Other ITSRs and **Issue Fixes**

ITSR # 541: Rename asset names to match asset classifications

- Script run to update asset description from classification description, from a provided list of classifications.

ITSR # 545: Replace RECM Workflow with FINSP and PROJ work types

- Workflow for PROJ type Work Orders should follow the same path as FINSP and RECM work types.

ITSR # 555: Clear RTS (“Estimated Return to Service”) on Asset

- RTS Date on Asset would automatically be cleared when an asset is brought back up.

ITSR # 549: EZMax Mobile Owner group and work group look up filter

- The list of Work Groups and Owner Groups are filtering as expected as it is working on Maximo Desktop.
