

# Maximo Monthly Release 04/04/2018

---

Phase 6 ITSRs Deployment

## ITSR # 481: Manage Downtime History

- Users can now view “downtime history” of a particular asset, by clicking on “View Downtime History” on Asset Application. A Cognos report is also available to view history of Assets by Failure class or within a date range. Downtime history shows details of the person who brought down/up the asset, SR/WO number & description which was used to bring down the Asset etc.

IBM Cognos Viewer - LAWA Asset Status History				
 <h3>ASSET DOWNTIME HISTORY</h3>				
Asset Number	Legacy ID	Asset Status	Change Date	Change By
0000001610	T1-EL-04	DOWN	Jan 23, 2018 1:41:55 PM	ANDRADE, JAMES

## ITSR # 473: Asset Logs

- While working on work orders, users can add a work log of type “Asset”. All these logs are visible under “Logs” tab of Asset application for particular Asset. Supervisors can add logs to Assets directly on Asset application as well.

## ITSR # 468: Remove "Open SR" application from the Technician Start Center

- “Open SR” portlet is removed from technician to avoid confusion. “On-call Assigned SRs” portlet is still available on the start center.

Update Start Center	
Asset Management Div.	CUP

 My Assigned WO (Non-PM)	1 >
 My Assigned PM	0 >
 On-Call Assigned SRs	0 >

## ITSR # 480: Ability to flag assets that have been labeled/tagged

- User can enter the date on which an Asset was tagged and track/search Assets which were tagged or were yet to be tagged. Asset tagged between a certain date can be searched for re-tagging.

The screenshot shows the 'Assets' management interface. The top navigation bar includes a home icon, a menu icon, and the title 'Assets'. Below this is a toolbar with icons for adding, saving, editing, undo, redo, and deleting. The main content area has tabs for 'List View', 'Asset', 'Spare Parts', 'Specifications', 'Safety', 'Meters', 'Relationships', and 'Work'. The 'Asset' tab is selected, showing a form for editing an asset. The 'Asset' field contains '0000001389' and a dropdown menu showing 'Passenger Elevator'. The 'Status' field is set to 'OPERATING'. The 'Asset Tag Date' field is highlighted with a red circle, and a calendar is open, showing the month of April 2018. The calendar has a grid with days of the week (S, M, T, W, T, F, S) and dates (1-30). The year 2018 is selected at the bottom of the calendar.

## ITSR # 489: Update Asset Criticality Descriptions

- Asset criticality descriptions are updated as below.

The screenshot displays the ITS system interface with the 'Asset' tab selected. A 'Select Value' dialog box is open, showing a table of criticality levels. The table has two columns: 'Value' and 'Description'. The values are 1 through 5, corresponding to 'Very Low', 'Low', 'Medium', 'High', and 'Very High' respectively. The 'Very Low' row is highlighted. The dialog box also includes a search bar, a filter icon, and a 'Cancel' button. In the background, the asset details for '0000001389' are visible, including its SAP ID, Legacy ID (T6-EL-03), and Location (TER06.L1ELV).

## ITSR : EZMax Usage and Maximo Usage work spaces

- Cognos work spaces are created to track EZMax Mobile Usage.

## ITSR : EZMax Usage and Maximo Usage work spaces

- Cognos work spaces are created to track Maximo Usage.

## ITSR # 477, 458, 488: Issues/Bugs fixes

---

- **ITSR # 362:** Work Group Lookup in WO (ezmax) doesn't show all values, user has to go to next page and come back to previous page to see all values such as "ELV-SHOP".
- This Issue is **FIXED**. All work groups are show correctly, sorted alphabetically.
  
- **ITSR # 458:** Parse EZMaxMobile Scanning to Include Only Asset Number on Asset Tags.
- This Issue is **FIXED**. Even if Asset Tag has more data than Asset number, separated by commas, EZMax Mobile would just pick and search Asset Number from the tag.
  
- **ITSR # 488:** Enable Cron Task for KPI Trending.
- KPI Trends can be generated in Maximo and patterns can be see over time.
