Note: For intersections that are fully or partially located in the City of Los Angeles, the final V/C values presented in "Chapter 4.12.2 Off-Airport Surface Transportation" was calculated based on the initial V/C from this worksheet, plus manual adjustment for ATSAC and/or ATCS credits. Specific V/C credit applied to each City of Los Angeles location can be found in Table 4.12.2-1.

Note: For intersections that are fully or partially located in the City of Los Angeles, the final V/C values presented in "Chapter 4.12.2 Off-Airport Surface Transportation" was calculated based on the initial V/C from this worksheet, plus manual adjustment for ATSAC and/or ATCS credits. Specific V/C credit applied to each City of Los Angeles location can be found in Table 4.12.2-1.

Version: 1i Beta; 8/4/2011

Note: For intersections that are fully or partially located in the City of Los Angeles, the final V/C values presented in "Chapter 4.12.2 Off-Airport Surface Transportation" was calculated based on the initial V/C from this worksheet, plus manual adjustment for ATSAC and/or ATCS credits. Specific V/C credit applied to each City of Los Angeles location can be found in Table 4.12.2-1.

LEVEL OF SERVICE (LOS):				A			A

Version: 1i Beta; 8/4/2011

Note: For intersections that are fully or partially located in the City of Los Angeles, the final V/C values presented in "Chapter 4.12.2 Off-Airport Surface Transportation" was calculated based on the initial V/C from this worksheet, plus manual adjustment for ATSAC and/or ATCS credits. Specific V/C credit applied to each City of Los Angeles location can be found in Table 4.12.2-1.

Version: 1i Beta; 8/4/2011

Note: For intersections that are fully or partially located in the City of Los Angeles, the final V/C values presented in "Chapter 4.12.2 Off-Airport Surface Transportation" was calculated based on the initial V/C from this worksheet, plus manual adjustment for ATSAC and/or ATCS credits. Specific V/C credit applied to each City of Los Angeles location can be found in Table 4.12.2-1.

Version: 1i Beta; 8/4/2011

Note: For intersections that are fully or partially located in the City of Los Angeles, the final V/C values presented in "Chapter 4.12.2 Off-Airport Surface Transportation" was calculated based on the initial V/C from this worksheet, plus manual adjustment for ATSAC and/or ATCS credits. Specific V/C credit applied to each City of Los Angeles location can be found in Table 4.12.2-1.

Note: For intersections that are fully or partially located in the City of Los Angeles, the final V/C values presented in "Chapter 4.12.2 Off-Airport Surface Transportation" was calculated based on the initial V/C from this worksheet, plus manual adjustment for ATSAC and/or ATCS credits. Specific V/C credit applied to each City of Los Angeles location can be found in Table 4.12.2-1.
