# Construction Hot Topics

Week of: May 28, 2017 –June 3, 2017

1. <u>Terminal 7: Baggage Claim</u>

- There is one outstanding carousel to complete at Terminal 7/8's baggage claim. Bag Claim 2 is currently closed and barricaded in order to undergo redevelopment to match the new carousels 1, 3 and 4. Work on Bag Claim 2 is scheduled through the end of the year.
- The barricade around Bag Claim 2 creates an obstruction between Bag Claim 1 and Bag Claims 3 and 4, so it is necessary for guests to go outside to the curb and come back inside to the appropriate baggage carousel, depending on whether they are reaching the arrivals level via the down escalator at the west end of Terminal 7, closest to Bag Claim 1 (top left image), or if they are reaching arrivals via the down escalator at the east end of Terminal 8, closest to Bag Claims 3 and 4 (top right image). Signage is in place in the interior (bottom left image) and exterior (bottom right image) to help guests navigate the area.

2.West Way: Lower Level

- Road work has commenced on the corner of southbound West Way at World Way North. This corner is being widened in order to improve the turn radius, especially for larger vehicles, like passenger buses, that have had difficulty in the past. The work is scheduled through the end of June.
- As a result of this work, impacts to the roadway are as follows:
  - NO left (southbound) turn onto West Way from World Way North (left image below).
  - Southbound West Way is closed between World Way North and Center Way (right image below).

3. Parking Structure 1: Lower Level Sidewalk

- The parking structure elevator upgrades at Parking Structure 1's Northeast and Northwest vestibules is complete, with punchlist items only remaining. The barricades along the exterior of the Northeast vestibule were the last remaining barricades as PS-1, and they have been removed. This results in unobstructed access to the sidewalk along the entire north side of PS-1 (both images below), which improves overall access for guests using this structure.
