CONCESSIONS

LAWA Concessions Overview

What is a Concession?

An **Airport Concession** is defined as:

- A. Business located at the **Airport** engaged in the sale of consumer goods or services to the public under an agreement with 1) the **Airport**, or 2) another **Concessionaire**
- B. Business conducting one or more of the following activities (even if it does not maintain an office or store at the Airport, as long as activities take place at the Airport):
 - Managing contracts and subcontracts (e.g. Terminal Commercial Manager - URW)
 - Web-based or other electronic business passengers can access in the terminals (e.g. WiFi)
 - Advertising business providing displays or messages to the public at the Airport (e.g. JCD)

LAWA Concessions Overview

Does LAWA manage all concessions at LAX?

Yes, using two (2) concession management models:

A. Direct Agreements through LAWA

- Business Relationship Manager (BRM) manages agreements for airport-wide concession services (currency exchange, luggage carts, etc.), Food & Beverage and Retail concessions in Terminals 4, 5, 7, and 8.

B. Indirect Agreements through URW

- URW (Unibail-Rodaco-Westfield) is the Terminal Commercial Manager for LAWA (somewhat like a Property Manager)
- Manages concessions in Terminals 1, 2, 3, 6, and TBIT via Unit Concession Agreements

LAWA Concession Opportunities

How do I get my business at the airport?

Concessions are selected via an open competitive solicitation basis (aka Bid/Award process, e.g. RFB, RFP, etc.). To be notified of any opportunities, interested parties may:

- Register on RAMPLA (www.rampla.org) and Bonfire (www.lawa.bonfirehub.com).
- LAWA concession agreements have various expiration dates. Registering with RAMPLA and Bonfire ensures you will be notified when new opportunities are available.

Other than an RFP issued by LAWA, how can I get my business at the airport?

- Educate yourself on partnership opportunities and research their ACDBE opportunities.
- Reach out to URW to learn more about opportunities available in terminals managed by them.
