

## Creating Career Pathways

Skanska, one of the world's leading project development and construction groups, is currently working towards substantial completion here at LAWA. While spearheading the Roadways, Utilities, and Enabling projects (RUE), Skanska has been committed to creating pathways for eight HireLAX graduates throughout the project's duration.

Mychael Kimber, a recent HireLAX ARP graduate, endured the strenuous Local 300 Bootcamp, and was offered a position with Skanska! Since March 2025, Mychael has been working with his new team to ensure the project is progressing and finishing on time.

Skanska has also introduced their subcontractors to HireLAX, and they too have created life-changing opportunities. Marina Landscape recently sponsored Dion Tate into Local 345: Landscape and Irrigation. Dion is grateful for HireLAX, for giving individuals a second chance to create a career. He is fortunate to be learning new skills and being a part of the Marina team.

Skanska and Marina Landscape have demonstrated their commitment to LAWA's workforce development system: HireLAX Apprenticeship Readiness Program, and for that, graduates are very thankful to contractors helping them to make strides towards successful construction careers.

If you want to get involved and sponsor a graduate, please reach out to Christina at [CWatkins@lawa.org](mailto:CWatkins@lawa.org)
