Cc: Alfred Mata <alfred.mata@lacity.org>
Subject: LAX Terminal 1.5 Project Executive Director's Review - Case #001-016LAXSP

To: Angelica Espiritu,

Your request to City Engineer Gary Lee Moore, for review of this project was forwarded to my District Office for review and comment.

Since this project is totally within the Central Terminal Area (CTA) the only Bureau of Engineering comment is to check that there is adequate sewer capacity available for a new building.

Michael Patonai, P.E.
