2. Terminal 5.5: Departures Level Lane Restrictions

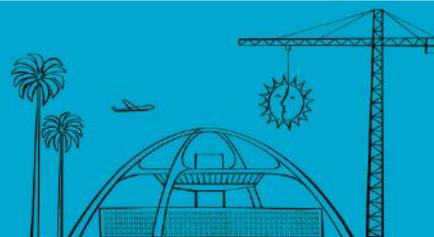

- The Terminal 5.5 Project will have a mobile crane in place starting next week to install glass panels on the façade of the building; to facilitate this work, Departures Level World Way South between Terminals 5 and 6 will experience nightly (10PM to 6AM) lane restrictions through Friday, October 15
- Impacts during work hours include the closure of the sidewalk, Hotel & Private Parking Shuttle Stop and passenger drop-off at the work area
- Through traffic is maintained at all times, temporary shuttle stop zones will be in place before and after the closure, passenger drop-off will be maintained before and after the closure, and pedestrians will be detoured to the Arrivals Level to avoid the work zone; Flaggers and signage will be in place

Departures Level T5.5 Nightly Lane Restrictions through Friday, October 15
